

How to Play

The game begins with players placing an ‘Ante’ wager in the corresponding areas on the table layout prior to any cards being dealt. Players also have the option of placing a Jackpot bet.

Two hole cards are then dealt to each player face down. When all hole cards have been dealt, players can then look at the cards but must not show them to the Dealer or other players.

Players review their cards and decide to ‘bet’ or ‘fold.’ If they fold, they forfeit their Ante.

If the player chooses to bet, they must make a further bet, one to three times their Ante wager. This is called the “3rd Street Wager.”

Once all players have made their decisions, the Dealer will then turn over the 3rd Street card.

Players once again decide to bet or fold. If the player chooses to bet, they must make another further bet, one to three times their Ante wager. This is called the “4th Street Wager.”

The Dealer will then turn over the 4th Street card.

Finally, the players decide again whether to bet or fold. If the player chooses to bet, they must make a final bet, one to three times their Ante wager. This is called a “5th Street Wager.”

The Dealer will then turn over the 5th Street card. This concludes the betting round.

To determine the payouts, the Dealer will turn over and spread the players hole cards and announce the best possible five-card Poker hand, using the players two hole cards and the 3rd, 4th and 5th Street cards.

The Ante and all Street Wagers are paid according to the Payout Odds.

About the Game

Crown Sydney offers a variety of poker games. Mississippi Stud is a form of poker with similarities to the traditional Five-Card Stud Poker but with small differences.

Game Overview

The objective of Mississippi Stud is to make the best Five-Card Poker hand possible where the higher the hand ranking, the greater the payout. There is no need to beat another player or the Dealer, however a minimum hand ranking of a Pair of 6’s is required.

Each game has a house edge. This is the overall percentage of money wagered that is expected to be retained by the casino. The lower the house edge, the higher the proportion of money that is returned to the players.

Mississippi Stud played at Crown Sydney has a house edge of approximately 1.37% excluding side wagers.

Crown Sydney’s rules of the game of Poker Minors – Mississippi Stud, are approved by the Independent Liquor & Gaming Authority.
